

HOT NEWS ON CLIMATE CHANGE

■ COME the end of this week South Africans will know what changes will be put in place to mitigate the impact of climate change locally.

A five-day national climate change summit began in Sandton yesterday with a view to translating government policy decisions into action. These include fiscal, regulatory and legislative packages as well as sector implementation plans.

Apart from government departments, led by Environmental Affairs and Tourism, industry, labour and NGOs are also represented at the summit. – *Citizen Reporter.*
